

## **Construction Manager (m/f/d) - Germany**

Eavor Technologies Inc. is seeking a high performing Construction Manager. Employed by Eavor GmbH in Germany and working within a multidisciplinary international team you will use your operational and technical expertise, initiative, business acumen, and problem-solving skills to construct the world's first closed-loop geothermal systems. The successful candidate's primary focus will be on our project developments in Germany. There is ample potential for career growth in our rapidly expanding technology start-up.

Eavor is seeking a candidate with a technical background and experience developing energy projects.

Eavor provides a competitive compensation package with upside opportunity.

**with the subject line Construction Manager.**

### ***Roles and Responsibilities***

- On-site managing and overseeing construction sites in Germany for energy project developments, consisting of civil infrastructure works, power plant construction and drilling operations
- Testing and commissioning of ORC power plant facilities
- Lead for site supervision and logistics. Manage operations within project time schedule and budget
- Support implementation of site specific safety manuals and participate in HSSE management and supervision tasks
- Implementation and management of site management procedures as well as permit to work systems
- Participate in design and construction method acceptance process and approvals
- Lead in contract and claims management at construction site. Ensure regulatory and contractual compliance of works at site as well as compliance with corporate policies and procedures
- Implementation and management of progress reporting
- Participate in corporate knowledge management systems and logistics optimization to support long term efficiency improvements
- Participate in execution of local stakeholder engagement plans
- Interact with local stakeholders and visitors
- Interact with joint venture and project partners

### ***Qualifications***

- Professional fluency in both German and English
- Minimum 7 years professional experience
- Minimum 2 years in a construction manager or project manager capacity in the energy sector: planning, coordinating multidisciplinary colleagues, developing power or oil and gas energy assets

- Experience in leading major construction sites
- Experience in contract and claims management
- Experience with permit to work systems and QA/QC procedures for construction works
- Experience with CAD and MS Project
- Experience with deep drilling projects is considered as an asset
- Minimum Bachelor of Engineering Degree or similar
- Proven Analytical and problem-solving capabilities
- Proven HSSE experience
- Excellent communication abilities

***About Eavor Technologies Inc.***

Eavor (pronounced “Ever”) is a private company founded in 2017 to develop and commercialize disruptive geothermal technology. We mobilize cutting edge oil and gas technology, along with some proprietary solutions, to create the world’s first closed-loop geothermal system. Eavor has successfully built a prototype demonstration facility (“Eavor-Lite”) in Alberta along with our partners. Working with clients and partners, we are progressing a pipeline of commercial projects in Germany, other parts of Europe, the Middle East, Africa, Asia, Australasia and North America.
