

# Transforming the Power Industry

Eavor's technology consists of several Patent Pending innovations.

An EavorLoop™ is the connection of two vertical wells with many horizontal multi lateral wellbores creating a closed buried-pipe system.

Eavor's proprietary working fluid is not from a reservoir, it is selected and added at surface, then circulated to harvest heat from deep in the earth to be used to generate electricity or in commercial heating/cooling applications.

## Change the World ForEavor

Eavor is a technology-based Energy company dedicated to creating a clean, reliable and affordable energy future on a global scale.

Eavor-Loop™ transforms the world's energy stack, addresses climate change and provides socioeconomic balances: clean, scalable, resilient baseload power for everyone, for Eavor.
